02 • WHO WE ARE

A Product Company, First.

We're an engineering-led team building Businessflo, PeopleNest and HMSflo — and taking on custom builds for businesses that need something no off-the-shelf tool can offer.

Align Business Systems is a product & software company. We design, build, deploy and support the systems that run your operations — one accountable team from first call to daily use.

WHY ALIGN EXISTS

Because Spreadsheets Don't Scale.

We started Align because too many growing businesses were running critical operations — finance, HR and day-to-day operations — on tools never designed for the job.

— **We build the alternative.**

03 • OUR PURPOSE IS SIMPLE

Build powerful systems. Empower growing businesses.

Align Business Systems is one team behind one platform. We connect finance, people and operations so your whole company runs on a single source of truth — not disconnected tools stitched together.

HOW WE THINK

Operations

Every department, one system.

Integration

Nothing lives in a silo.

Intelligence

Dashboards that decide, not just display.

CLIENT BENEFITS

Explore the advantages of partnering with us.

01

Tailored Solutions

Built around your needs.

02

Expert Guidance

Seasoned professionals.

03

Innovative Tech

React, .NET, SQL & more.

04

Timely Support

Proactive, low downtime.

05

Continuous Improvement

Always current practices.

06

Partnership Approach

Collaborative & open.

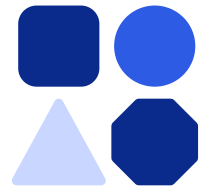

We don't just automate — we orchestrate.

ONE ACCOUNTABLE TEAM

We design, build, deploy and support it all in-house.

04 • ONE PLATFORM, THREE PRODUCTS

One login. One source of truth.

Everything your teams do — finance, people, patient care — runs on a single Align platform instead of scattered across disconnected tools.

06 • CUSTOM DEVELOPMENT

We also build what you can't buy.

The team behind our products takes on custom builds — web, mobile and SaaS.

Web Development

Fast, scalable web applications built around your real workflows.

Mobile App Development

Native-quality iOS and Android apps for teams on the move.

SaaS Development

Multi-tenant products engineered to scale securely.

Custom Software

Bespoke systems for the problems off-the-shelf tools cannot solve.

Technology Consulting

We map your process, gaps and goals before building anything.

Digital Transformation

Modernize operations end-to-end with one connected platform.
